BERRY'S COMMERCIAL REPORT

Honolulu, November 1, 1902.

Now comes the good tidings from San Francisco that the Stock and Bond Exchange of that city is taking a much keener interest in Hawaiian securities. The listing of the first mortgage 6 per cent. bonds of the Honolulu Rapid Transit and Land Company, with bidding for the same at 106, also considerable trading in sugar shares at increased prices, are evidence of the awakening. Arrangements have been perfected for the listing of the Oahu Railway shares on the San Francisco board during November. It is believed that the shares will be put on the market at 100. Railway shares changed hands at 77.50 in September, but advanced steadily through October to sales yesterday at 95, which was the closing bid quotation.

Latest advices from Williams, Dimond & Company give the price of sugar in New York at 3.625 cents; San Francisco at 3.25 cents. Beet sugar in the London market is selling one quarter higher. This is explained by the fact that the trust has bought heavily in Java, and in consequence has a large supply on hand. This fact has enabled the trust to keep the price of cane sugar down.

Williams, Dimond & Company say that "there is no doubt but what this season's European beet crop will fall far short of that of last year as the result of the unfavorable weather prevailing this season, but the extent of the shortage will probably remain uncertain for some time. Mr. Giesecker has given as low an estimate as 5,350,000 tons, which is 1,530,000 tons short of last year's crop, but this estimate is not generally accepted. Private telegraphic advices received state that Licht estimates the European beet crop at 5,850,000 tons, against last year's crop of 6,843,000 tons."

Exceptional good feeling prevails in Honolulu because of the better sugar prices. Trading has abated some because of the absence of sellers in the market. Walluku sold yesterday at 270, an advance of 20 points. Kekaha sold at a private sale at 200. Honouliuli is 110 bid. Olua paid-up is 11 bid with no sellers. Several hundred Hawaiian Sugar shares were reported at 23. Ewa sold freely at 23 1/4 and 23 1/2. Pioneer is 70 bid, and Wailua is sought after at 52.50. McBryde is 4 bid. Ookala advanced from 7 to 8. Inter-Island is strong at 70 bid.

It is now certain that at least three-fourths of the share holders of the Walluku, Hawaiian Agricultural, Honouliuli and Onomea will sign the merger agreement. The coming crop of the Hawaiian Agricultural will far exceed the manager's estimate because of the increased water supply.

The Wailua stockholders will meet on November 6 to consider the matter of securing the Wailua water.

This year's taxes, together with the delinquencies of previous years, are estimated at about \$1,880,000. The greater portion of this amount will have been paid by November 15. The banks will be called upon to meet the heavy demand for money, and as a result the money market is sure to tighten. The present system of locking up government revenues in the Territorial vaults works a great hardship on the business community. A bill is now being drafted to introduce before the coming legislature, which has for its object the designation of one or more banks as Territorial depositories.

The mortgage indebtedness has increased since our last report \$117,095.13.

The following instruments have been filed during the last fortnight:

78 Deeds \$ 55,505.18
28 Mortgages 140,030.00
5 Chattel Mortgages 4,549.68
